VINYL & ALUMINUM SIDING REFINISHING

Properly prepare all surfaces prior to painting. Powerwash to 4000 P.S.I. to remove dirt, dust, chalk and contamination. Caulk the entire home and glaze window sash where needed. Spot prime bare wood and rusty metal.

Spray paint the aluminum siding and soffits with two coats of the top-of-the-line Sherwin Williams acrylic latex flat finish. Apply a satin enamel finish to gutters, fascia boards, window and door frames. Paint shutters an accent color. Wood shutters painted on both sides. Paint entrance doors with an enamel. RAZOR and WASH the exterior of all windows.

• CEDAR SIDING STAINED •

Properly prepare all surfaces prior to staining. Powerwash to clean the surface and remove mildew. Renail any loose boards and caulk where needed. Fill any splits, bee, woodpecker and knotholes. Apply one coat, two coats where needed for ample coverage, of a solid color or semi-transparent stain. RAZOR and WASH the exterior of all windows. Apply semi-transparent or clear coatings to decks.
